USING YOUR POWER BANK

The Sentey Brio LS-2180 high capacity power bank has Dual USB port, compact & lightweight design with Rubber coating finish. Easily fits into your pocket or bag. Grade A cells high quality Lithium-ion battery ensures reliability; 500 + recharge cycles over the life of the battery.

1. PRODUCT SPECIFICATIONS

- ① Port Output1 (5V / 2.1A or 1A)
- ② Power Button
- ③ LED Flashlight*
- ④ Input (5V / 1.5A)
- ⑤ Port Output2 (5V / 1A or 2.1A)

* NOTE: Press and hold the Power Button will turn ON/ OFF the LED flashlight

1. POWER LEVEL INDICATOR SYSTEM

Press the Power Button to check the battery level. Number of LEDs indicates how much battery is left:

4 LED indicates battery level between 75% - 100%

3 LED indicates battery level between 50% - 75%

2 LED indicates battery level between 25% - 50%

1 LED indicates battery level less than 25%

4 LED BLINKING IN SAME TIME INDICATES BATTERY IS WITH VERY LOW CHARGE

2. CHARGE YOUR PHONE OR TABLET

1

Connect the USB end of the charging cable to the power bank.

2

Connect the other end of (your) charging cable to your device.

3

The power bank will automatically detect your device and start charging it. Will automatically stop charging and turn itself OFF when device is fully charged.

3. RECHARGE YOUR POWER BANK

The Sentey Brio LS-2180 come with Input 2A Fast charging design to complete full charge in less hours. We recommend charging the power bank when the battery level is lower than 25%. The power bank can be charged by wall charger with USB output, computer USB port and USB car charger.

1

Connect the micro-USB end of the charging cable to the LS-2180 power bank.

2

Connect the USB end of the charging cable to any USB power source***.

3

Charging will start automatically. The battery indicator will start blinking when the power bank is being charged, and become solid once fully charged.

Brio Lux Smart Charger
(not included)

*** NOTE:
